

Production Area

The grapes come from two different production areas: the *Colli Orientali del Friuli*, an area particularly suited to hillside viticulture and the Lower Friulian Plain, an area richly cultivated following impressive reclamation works dating back to the early 20th century.

Municipalities Manzano - Piancada, Palazzolo dello Stella

Altitudine 70m asl - Piancada: 0m asl

Soil

In Manzano the soil is made up of a mixture of marl and clay that has stratified over the millennia. The rich nature of the soil, together with the significant temperature variations, contribute to the production of structured and intense white wines.

In Piancada the silt-sandy, silt-clay subsoil is suitable for the cultivation of vines, which find in the fertility and salinity of the soil a fundamental characteristic for the aromaticity of the wines.

Grape Sauvignon Blanc

Vineyard surface 6ha

Plants per Hectare 5000-6000

Vineyard age 25 years

Training System

Manzano: guyot

Piancada: free cordon

Harvest - manual - mid September

Yield per Hectare 80q/ha

Production Process

Grapes are harvested when fully ripe, immediately cooled and cryomacerated for 24 to 48 hours to extract the typical aromas of the vine. We then proceed with soft pressing and fermentation. Vinification in steel tanks takes place for approximately 8 months, followed by cold stabilisation, filtration, bottling and packing procedures.

Organoleptic Characteristics

Brilliant straw yellow with golden tinges. Intense bouquet where notes of boxwood and citrus emerge. On the palate it is soft and well balanced with a good sapidity on the finishing.

Chemical Characteristics

ABV 13%

Sugar, g/l 4,00-5,00

Acidity, g/l 6,50-7,00

Pairing Suggestions

Ideal wine to accompany tasty first courses such as linguine with pesto; white meats and grilled vegetables. For a vegan pairing, accompany it with falafel and humus.

Recommended glass Tulip glass

Serving temperature 6-8°C

Available sizes 75cl

Item Code BTGSVG N

Case 6 bottles
